LAWRENCE EGHAREVBA

Miami, FL | (786) 299-3889 | legharevba2024@fau.edu

AI / MACHINE LEARNING • CLOUD & DEVOPS • NETWORK INFRASTRUCTURE

PROFESSIONAL SUMMARY

Technology professional with prior experience in IT and network administration, an M.S. in Artificial Intelligence, an M.S. in Telecommunications and Networking, and ongoing part-time PhD studies in Computer Science. Hands-on graduate project experience in machine learning, cloud deployment, Linux security, container orchestration, and CI/CD. Seeking AI engineering, cloud infrastructure, network automation, MLOps, or research computing opportunities.

TECHNICAL SKILLS

AI & Data: Python, PyTorch, TensorFlow/Keras, scikit-learn, computer vision, NLP, model evaluation
Cloud & DevOps: Microsoft Azure, Docker, Kubernetes, Rancher, GitLab CI/CD, Kaniko, Git, FastAPI
Systems & Security: Ubuntu/Linux, SSH, Harvester HCI, LDAP, 389 Directory Server, OpenSCAP (lab exposure)
Networking: TCP/IP, routing and switching, DNS, HTTP/HTTPS, network troubleshooting, Kubernetes Services and Ingress

SELECTED TECHNICAL PROJECTS

Cloud Security, Kubernetes & CI/CD Labs — Florida Atlantic University | 2026

- Provisioned Ubuntu virtual machines on Harvester; configured SSH access and performed Linux administration and hardening tasks.
- Built and deployed containerized applications using GitLab CI/CD, Kaniko, Docker, Rancher and Kubernetes Deployments, Services and Ingress; verified pod health and application endpoints.
- Deployed 389 Directory Server and validated LDAP directory records using LDIF and ldapsearch; explored OpenSCAP assessment tools and benchmark availability.

Machine Learning for Satellite Image Cloud Classification — Academic Research |

- Developed and evaluated RGB and RGB-plus-SAR classification models for cloudy versus cloudless satellite image patches using PyTorch and ResNet-based approaches.
- Compared model precision, recall and F1 scores; achieved approximately 78% test accuracy with an RGB ResNet model in reported experiments.

Layer-Wise Deep Feature Inversion — Academic Research |

- Built decoders to reconstruct CIFAR-10 images from intermediate ResNet-18 features; compared reconstruction quality across network depths using PSNR, SSIM and LPIPS.

Streaming Recommendation System — Academic Project |

- Integrated Kafka-compatible Azure Event Hubs messaging with containerized ingestion and a FastAPI recommendation endpoint; tested event production, consumption and API deployment.

PROFESSIONAL EXPERIENCE

Participant / Proposal Reviewer — NASA L'SPACE Proposal Writing and Evaluation Experience Academy | May–Aug 2025 | Virtual

- Developed a technology traceability matrix for a SmallSat plasma characterization instrument; evaluated technical proposals against solicitation criteria and chaired a review panel.

Information Technology Administrator — Oceanic Bank PLC, Lagos, Nigeria | Feb 2014–May 2019

- Installed, configured and supported workstations, network equipment and peripherals; troubleshot routers, switches and network connectivity.
- Contributed to network architecture planning and day-to-day IT infrastructure support.

Network Administrator — University of Benin, Nigeria | Jul 2011–Apr 2014

- Supported enterprise network and system installation, maintenance and troubleshooting in multi-protocol environments.
- Implemented and maintained antivirus, firewall and intrusion-prevention configurations as part of network security operations.

Cisco Certified Network Trainer — Igbinedion Okada University, Nigeria | Dec 2007–Jan 2011

- Developed and delivered entry-level network training; taught foundational security practices, including passwords, firewalls and antivirus protection.

EDUCATION

PhD, Computer Science (Part-time, In Progress) — Florida Atlantic University, College of Engineering and Computer Science | Jan 2026–Present

M.S., Artificial Intelligence — Florida Atlantic University | Dec 2025 | GPA: 3.96/4.00

M.S., Telecommunications and Networking — Florida International University | Apr 2021 | GPA: 3.74/4.00

B.S., Computer Engineering — University of Benin, Nigeria | Nov 2008

HONORS & AWARDS

Certificates of Recognition for Academic Achievement — Spring & Summer 2025 | Florida Atlantic University, College of Engineering and Computer Science

PROFESSIONAL DEVELOPMENT

NASA L'SPACE Academy — 2025
